Soil was a way of life for Gary Agajanian since he was 16 years old. In 1986, Gary began sales internationally on general fresh produce he grew on his land. That experience gained him the knowledge and experience to move into another venture – wine grape growing.

In 1991, Gary bought his own vineyard and has grown his business to 12 employees and a full service bulk wine and wine grape negotiant.

**What sets Agajanian Vineyards and Wine Company apart from the competition?** We own everything we sell. We are very “hands on” in the vineyard and work very closely with our growers. We are a full service company.
