

2021 TEXAS WINE & GRAPE VIRTUAL CONFERENCE

Why Wouldn't You Attend?

Our inaugural Virtual Forum exponentially expands our educational and networking opportunities beyond the owners. Without travel, hotel and food expenses, wineries and vineyards can NOW offer valuable educational and networking opportunities to ALL their employees. That's a 'score' for the employer taking care of their employees and a "double score" for an employee who would never be able to afford to attend in person. We are so excited about the expanded educational and networking opportunities because WE BELIEVE in its importance.

Don't Miss What We're Offering!

- 16 hours of professional education by highly educated and industry recognized speakers
- Pesticide in the Vineyard - 1-hour CEU
- Virtual Tasting of Four LSIWC Gold Medal Winners
- 42 hours of 'real time' online access to our 'Solutions Partners'
